

EMPIRE STATE BUILDING
More than any other building in the world, the Empire State Building represents the ambition of humans to build towers that reach for the skies. The skyscraper is probably New York's best known building and can be seen on many postcards.

EMPIRE STATE BUILDING
More than any other building in the world, the Empire State Building represents the ambition of humans to build towers that reach for the skies. The skyscraper is probably New York's best known building and can be seen on many postcards.

For the many immigrants who flocked from Europe to New York, the Statue of Liberty was the first image they saw of the USA. The statue was a gift from the French government for the 100th anniversary of America's Independence. The Statue of Liberty is 46,5 meters (151ft) tall and together with the pedestal it reaches a height of 93 meters (305ft). You can take the staircase inside the statue and walk all the way up the 354 steps to the crown from where you have a nice view over New York City. quis bibendum auctor, nisi elit conneque.
