

NATURE & EARTH

A tribute to the journey
of plant growth

Step into a world where nature's quiet alchemy is honoured in every pour. Nature and Earth is a poetic tribute to the lifecycle of a plant, from seed to juice. Each creation centres on a single ingredient deeply rooted in Asian heritage, drawing inspiration from verdant landscapes, ancient forests, tea gardens, and fragrant spice markets. From the earthy depth of buckwheat to the sweet vibrancy of mango and sugar cane, every cocktail celebrates the ingredient's cultural story while showcasing its unique character. A sensorial journey through nature, inspired by our roots.

THE EVERGREEN

*In place of a traditional cocktail,
choose The Evergreen—a toast to
sustainability and lasting impact.
Through our partnership with Veritree,
one native tree will be planted on your
behalf in the rolling countryside of
Kent, helping restore biodiversity and
combat climate change.*
