Origin's beef menu is a bespoke selection featuring grass and grain-fed, corn-fed, pure-bred, cross-bred and full blood Angus and Wagyu cattle. Sourced from Australia, Japan and Ireland, our curation encompasses some of the world's best beef.

CHEF'S CUT

Kagoshima Craft Wagyu A4 Maruzen Farm, Kagoshima, Kyushu

Female cattle are fed with a diet of soy beans, soy flour and corn, which increases the high quality fats that have low melting points. The meat has the finest texture, juiciest flavour, and lingering taste on your taste palate.

Striploin 200g \$128

Olive Craft Wagyu A4 Hata Farm, Manno Town, Kagawa, Shikoku

The smallest prefecture in Japan, which is renowned for producing olives. Due to the large production of olives, Olive Beef was born. The bespoke Olive Beef is high in oleic acid, which guarantees a rich and buttery mouthfeel.

Cut of the Day 250g \$218

Snow-aged Full Blood Wagyu A4, Niigata, Japan

Yukimuro method uses a traditional snow-covered room to preserve and age meat, allowing it to develop sweetness and mellowness. This ancient wisdom of the snow country has been handed down for generations.

ORIGIN ANGUS CLASSICS

John Stone Grass-fed Dry-Aged 35 Days, County Longford, Ireland

Hand-selected grass-fed cattle are matured using the traditional dry-aging method, resulting in exceptional tenderness.

T-bone per kg \$208

Rangers Valley Black Market Angus, 100% Pure Black Angus, 300 Days Grain-fed MS 5+, Northern New South Wales, Australia

Marbling, consistency, flavour and melt-in-the-mouth tenderness are maximised by a proven feeding program by Rangers Valley - specialised vegetarian grain rations fed slowly, over a period of time.

Striploin 300g \$84

Stockyard Black Angus 200 Days Grain-fed MS 4, Queensland, Australia

Stockyard's long fed beef is derived from Angus cattle fed on grain for a minimum of 200 days at the Kerwee Feedlot on a specially formulated high energy grain ration consisting of locally wholesome wheat, barley and sorghum to guarantee taste.

Absolutely no growth hormones, antibiotics, animal by-products or genetically modified (GMO) feed products are used.
