BATHORIUM™

SHANGRI-LA  
TORONTO

Bathorium™ began in 2014 when founder Greg Macdonald, backpacking through Positano, Italy, experienced a transformative bath drawn by a generous local host—filled with essential oils, botanicals, butters, and rich sea salts. Inspired by the indulgent, healing soak, he returned to Canada determined to recreate that moment. When everything he tried fell short, he launched Bathorium™ and a new era of luxurious, intentional bathing. Today, our award-winning soaks are crafted with cruelty-free ingredients and made to elevate your everyday self-care.
